Engine Flush & Cleaner

Engine flush cleans the engine and the oil system from the inside.

Engines freed from deposits can again achieve their full performance when filled with fresh oil.

Fields of application:

Suitable for all engine oils on a mineral and synthetic basis.

Note: Not suitable for use in motorcycles with wet clutches that use the same oil as the engine.

Properties:

Cleans components quickly without affecting the material.

Compatible with seals and gaskets. Suitable for petrol and diesel engines. Lowers engine emissions.

Compatible with catalytic converters. Loosens sticking piston rings. Easy to use.

Application:

A 400ml (1000ml) can is sufficient for up to 5 (10 to 15) liters of engine oil. Add engine flush to the engine oil at operating temperature. Let engine idle for 10 minutes maximum. Then change oil and filter.

Technical data:

		Unit	Method
Color	brown		Visual inspection
Density, 20 °C	0.82	g/cm ³	DIN 51757
Flash point	60	°C	DIN ISO 2592
Scent	Characteristic		

Remarks:
